JUST Listening Workshop

Being heard empowers the speaker
People hold the solutions to their own problems within
Skilled listening is creative, opening up new possibilities for all involved, and can be a powerful tool for personal and social change.
Although rarely consulted or listened to, people on the social margins are the best source of information and ideas about the issues facing them.
Skilled listening is possible only when one is actively cultivating self-awareness and regular habits of reflection.

Easter Sunday may have been two weeks ago, but Easter Time is still just beginning. Other than Ordinary Time, Easter Time is the longest season of the Church year. Unlike Advent and Lent, two seasons that look forward to the two major feast days of the year, Easter is a season that prolongs the feast that’s already been celebrated. Because the resurrection of Christ is so important, the event calls for a celebration that continues for many weeks.
